Game Board
Four Counters each

Objective: To force the opponent into a blocked position.

RULES: Players take turns to slide their counters, one per turn, along the connecting lines to a vacant cell.

The winner is the player able to make the last move.

RESTRICTIONS: No captures or jumps are permitted.

A counter may be moved from a cell located on one of the arms to the central cell only if a cell adjacent to that arm is occupied by the opponent.
