

Inquiry based project - Express yourself & Communication

As part of our inquiry unit this term students can choose to develop one of the following as means of expressing their passions, beliefs, interests and anything they would like to express to others. Ideally when we return to school we would love to hold an exhibition to show their creations. If you have any other ideas such as iMovie or PowerPoint we are more than happy for you to invent your own creation.

Keep a journal over two weeks; draw a picture each day to represent your overall mood for that day.

Create a scrapbook of big moments or events in your life.

. Create a collage of all the things most important to you.

Write lyrics and record a song to express an interest or passion of yours.

Create a 3D model to portray a message that is important to you.

Draw or paint a portrait or landscape that reflects an emotion of your choice.
